ETDs for Beginners – Conference Workshop: USETDA 2019 Conference

The successful implementation of electronic thesis and dissertation programs on campus can at first, seem to be a daunting task. This primer will prove extremely helpful in assisting you through this process. Armed with a team of experts, the “ETDs for Beginners” session will introduce you to concepts such as the myriad of free resources available through the USETDA and the NDLTD. Topics will include ETD implementation and political strategies, discussion of various models of homegrown ETD systems versus pre-packaged open source and commercial repository systems, ETD office automation strategies, the role of University libraries and graduate school in ETD program implementation and archiving, intellectual property issues, ETD Lifecycle Management as well as explore the usefulness of and approaches to consortia and networking to build ETD programs. This 3-hour workshop is open to beginners as well as veterans who would like a refresher on latest basic ETD concepts and resources. Get more out of attending the ETD Conference by attending this free session.
